

Brian Arthur Mentalism

Brian's primary focus is on the art of Mentalism; or, as he likes to call it - *Mind Illusions*. Unlike a magician using props to perform magic tricks, a mind illusionist uses people as his props. By creating several fun psychological experiments with spectators, he tries to intercept their thoughts and 'read' their minds. Many studies suggest that over 80% of body language is transmitted through non-verbal communication. Because of this, studying body language, noting the tone of voice, and looking into the eyes are all helpful tools for Brian whenever he attempts to tap into someone's thought patterns.

Brian relies heavily on audience participation during his show. He conducts many fun "experiments" such as guessing numbers people are merely thinking of, guessing the name of loved ones, predicting the outcome of specific events, or even predicting a word circled by a volunteer from a magazine!

Brian's enthusiasm rubs off on any group . . . His audiences will leave scratching their heads in disbelief as he guesses things that he could not possibly know . . . Brian's humor, professionalism and uniqueness are surefire traits that will help make your event truly memorable. Rest assured, at the end of it all you will have experienced a unique show, unlike any other. Brian is available for all types of events. From corporate annual general meetings to weddings, fundraisers, festivals, fairs or private parties, you can rest easy knowing that Brian has a show ready to go for any group.
